THE COUNCIL FOR TOBACCO RESEARCH  
DR. ARTHUR D. FISENBERG  
ASSOCIATE RESEARCH DIRECTOR  
900 THIRD AVENUE  
NEW YORK, N.Y. 10022, U.S.A.

Dear Dr. Fisenberg,

I write to you on behalf of the Technion R&D Foundation, that is the legal and commercial branch of the Technion - Israel.

The name of your organization was passed to me by Ms. R. Vogel, who is our information coordinator.

The Technion includes 20 faculties and departments, and 30 research centers.

The Foundation enables Technion staff to carry out sponsored research, initiate contacts with outside organizations and generally perform a variety of roles that would not be possible within the framework of an academic institution alone.

Throughout the years, we have developed a wide range of cooperations, contracts, joint ventures, etc., with sponsoring and commercial bodies in the world.

Your Foundation seems to be interesting and I would very much appreciate if you could provide us with updated information, about the possibility that an Israeli researcher from the Technion could get grants from your foundation. If it is possible what are: the conditions to get funds, the main topics, the kind of cooperation (if needed), and any forms or rules needed for the submission to your foundation.

I am looking forward to have your consideration on the matter.

Thanking you in advance and awaiting for your reply.

Yours sincerely

  
Judith Leibovich  
R&D Coordinator and  
Technology Transfer
